PROJECTS

Roomy – Roommate & Room Discovery Platform (Flagship Project) | [Live Demo](#)

May 2026

Next.js App Router, TypeScript, MongoDB, Auth.js, Cloudinary, Pusher, Tailwind CSS

- Built a full-stack roommate and room discovery platform with secure authentication, room management, and profile-based roommate matching.
- Engineered a weighted compatibility matching algorithm evaluating lifestyle, facilities, budget, location, occupation, and habits to generate personalized recommendations.
- Implemented real-time messaging with Pusher, media uploads via Cloudinary, SEO optimization, route protection, Cypress E2E and Vitest unit testing, deployed on Vercel.

Mia – AI-Powered E-Commerce Shopping Assistant

April 2026

React, Node.js, Express, SQLite, Ollama (Llama 3)

- Built a full-stack AI shopping platform with a conversational interface powered by Llama 3 via Ollama for product discovery.
- Engineered an NLP pipeline extracting structured intent (category, price, color, style) from free-text queries for real-time recommendations.
- Developed a complete e-commerce engine with cart, checkout, order processing, and an admin dashboard for inventory and chat-log oversight.

TuteSkillz – Online Tutoring Platform

November 2025

Node.js, Express.js, React, MySQL, Vercel, Railway, TiDB Cloud

- Built a multi-role tutoring platform (student, tutor, admin) with session booking, real-time availability, and automated conflict detection.
- Developed RESTful APIs for user management, scheduling, and conflict resolution, secured with role-based authentication.
- Deployed a production-ready system on Vercel (frontend) and Railway (backend) with TiDB Cloud as a scalable MySQL database.

Art E-Commerce Marketplace

January 2026

PHP, Laravel, Livewire, MySQL, Jetstream, Sanctum

- Built a full-stack e-commerce platform using Laravel MVC with product catalog management and multi-role administration.
- Implemented secure authentication and role-based authorization using Laravel Jetstream and Sanctum API tokens.
- Developed reactive, full-page-reload-free shopping cart and checkout workflows using Livewire components.
